At the time the student moves from education and training into a career, employer will be very interested in dependability and punctuality. No matter how skilled the person, an employee is valuable when present on the job.

The School Director shall review the case and determine the appropriate decision to be taken. This decision shall be made within seven days, upon receipt by the administration of the student's written complaint.

When such differences arise, usually a miscommunication or misunderstanding is a major contributing factor. For this reason, we urge both students and staff to communicate any problems that arise directly to the individual (s) involved. If the problem cannot be resolved in this manner, the School Director should be contacted. Normally, the informal procedure of "discussing" the difference (s) will resolve the problem. In addition to complaints previously stated and appeals of an academic nature a student has a right to complain to the institution. If a student wishes to file a written complaint, they may do so. All written complaints will be resolved within 10 days and will be sent to the student in writing.

If the complaint cannot be resolved after exhausting the institution's grievance procedure, the student may file a complaint with:
